

China National Nuclear Corporation was selected in the Global 500

On 10th August, Fortune magazine published the latest issue of the Global 500 rankings. China National Nuclear Corporation was nominated for the first time. This is the first time that China's nuclear industry enterprises have entered the Global 500 and it is also an important step for China National Nuclear Corporation to build an international nuclear science and technology development leader and promote the construction of a world-class enterprise. As the main body of the national nuclear technology industry as well as the backbone of nuclear energy development and nuclear power construction and nuclear technology applications, CNNC has a complete nuclear science and technology industry system. After the merger of CNNC and CNEC in January 2018 to achieve strategic restructuring, by the end of 2019, the size of new nuclear assets reached 830 billion yuan, had about 170,000 employees, set up advanced nuclear energy utilization, natural uranium, nuclear fuel, nuclear technology applications, engineering and other investment, nuclear and environmental protection, equipment, new energy industry, Health care and other market-oriented emerging industries, forming a higher level of nuclear industry innovation and industrial chain which significantly enhance the level of resources integration and utilization of China's nuclear industry and the overall international competitive strength.

Fortune Global 500 ranking has been a measure of the world's largest and most famous companies. It is also the most authoritative list which has a wide range of influence and authority and has become the world's leading indicator for enterprises to judge their own strength, scale and international competitiveness. CNNC's entry into the

Global 500 will greatly enhance the group's brand value, expand the company's market influence, enhance the pride and sense of gain of the vast number of employees, enhance cohesion, help enhance the overall strength of enterprises and bring the Group towards a higher stage. It will become a historic stage in the development of the Group.
