

Mr. Zhao Yixin, chairman of the board of directors, and Mr. Wu Yuanchen, executive director, went to Huiren, Hebei Province to conduct research

On August 26, 2020. Zhao Yixin, Chairman of the Board of Directors of China Nuclear Energy Technology Corporation Ltd, and Executive Director Wu Yuanhen, went to Hebei Huiren Medical Equipment Technology Co., Ltd. in Baoding City, Hebei Province, to conduct research on the research and development and capitalization of nuclear magnetic medical equipment and to conduct site visits to Baoding Rentang Hospital and project site.

After listening to the Head of Hebei Huiren science and technology Mr. Wang Tianfeng's introduction to the enterprise situation, Zhao Yixin said that there are opportunities in the medical industry market. As an investment platform for China National Nuclear Corporation's nuclear technology application industry, China Nuclear Investment is highly in line with the industrial direction and strategic objectives of Hebei Huiren Company which has successfully developed conventional nuclear magnetic and ship-borne nuclear magnetic equipment. China Nuclear investment will give full play to the advantages of state owned enterprise through market-oriented means and measures and jointly promote the execution of projects to achieve mutual benefit and win-win results.
